

# Construction Update

The 2018 summer construction plans are in the process of being finalized. Thank you for your support and understanding while projects in our schools (Lincoln, MS, and HS) were completed this past year. To date, the following projects have been completed:

- Lincoln: 3<sup>rd</sup> grade classroom wing and gymnasium
- Middle School: art room, music room, fitness room, and choir room
- High School: main office, main entry, auditorium (sound and light upgrades), fitness room, and flex room
- District-Wide: security cameras and the framework for a new emergency notification system have been installed

High School Fitness Room

Lincoln Elementary Classroom

Middle School Band Room

Completing some of the projects during the school year has lessened the load for this summer and allowed us to celebrate when some of the projects were completed. The new secure sequence at the high school has served as a model for the other four buildings, which will have their entrances renovated this summer. The Lincoln gym was officially opened for Fine Arts Night in March. We can now hold school-wide assemblies at Lincoln.

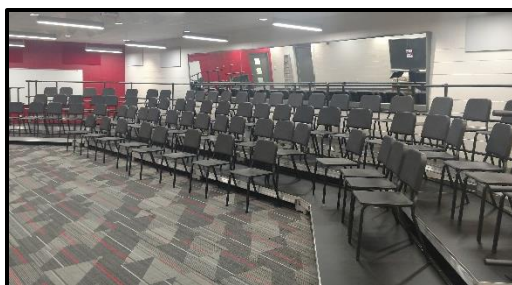

# Construction Update

Some of the summer construction projects have already started. The goal is to have all of the work completed around the fourth week in August with the finishing touches being completed in September. The following projects have been started:

- Lakeview: Library Media Center
- Lincoln: Library Media Center, courtyard (two outdoor learning spaces), and main office
- Washington: Library Media Center
- Middle School: main office and general music room
- High School: hallway to the aquatic center from the high school, training room, and library

Last week movers started to put library books in storage. Some staff at Lincoln Elementary have temporarily moved to the new wing so that the renovation of the main office can start. The Lincoln library is expected to be completed by the end of the school year.

**What will summer look like for the Whitewater Unified School District?** Summer school will be held at Whitewater High School June 18 - July 13 with a one-day break for the 4<sup>th</sup> of July. There will be no access to Lincoln Elementary, Whitewater Middle School, or Lakeview Elementary. The main entrance area at Washington Elementary will be closed. Whitewater Middle School office staff will be available by phone and will coordinate meetings with parents and students at the Central Office. After the 4<sup>th</sup> of July, parking for the Central Office and Whitewater Middle School will be on Elizabeth Street or at Whitewater High School.

**Celebrating our new learning spaces.** None of the renovated or new learning spaces would be possible without the passage of the \$23.5 million referendum during the fall of 2016. During the summer, we will generate a flyer announcing ribbon cutting ceremonies at our schools.

**Other Update Information.** Check out WWUSD [website](#).

## Thank you, Whitewater!
